Scraps and facts.

- New York, June 22: Twenty-four companies manufacturing manila wrapping paper were fined \$1,000 each by Judge Hough in the United States circuit court today. They plead guilty Friday to maintaining an illegal combination in restraint of trade. They were members of the Manila and Fibre association. In imposing the fines the judge said the combination of paper manufacturers was a clear violation of the Sherman antitrust law, but because of extenuating circumstances he would impose a fine only. The case against the companies was instituted through the instrumen of the American Newspaper Publishers' asociation.

-New York, June 20: Although the steamship Mauretania, which arrived yesterday from Liverpool brought with her \$40,000,000 in bonds and securities, one of the largest single shipments that ever cross ed the Atlantic, the attendant proceedings were so secret that the fact did not become known until today Whether these valuable documents have been sent to America for investment, or whether they have been withdrawn by Americans from English investments, could not be learned The precious shipment was carefully guarded on its trip across the Atlantic and was moved after reaching New York under the supervision of twelve armed detectives. It came from the banking house of Speyer Brothers, of London, and was consigned to Ladenburg, Thalman & Co., of No. 25 Broad street, although the real consignee is said to be Henry Heymann. - Charlotte, N. > THE effort of Mr. Martin to make apital against Mr. Evans because the latter's wife is a native of New England does not appeal to us. On the contrary it strikes us as extremely absurd. There may be voters who would be influenced by such a consideration; but one of the solemn duties of any candidate is to try to lift such voters to a higher plane.

At the Charleston meeting last Saturday, Mr. Blease did not fail to advise the Charleston tigers that he is more friendly to them than is Governor Ansel. He made capital of the governor's injunction proceedings. He made quite a hit with the liquor people and there is reason to expect that he will get the backing of this element throughout the state.

The essence of popular government s the will of the majority. Every citizen is supposed to vote for the men or principles which come nearest to meeting his judgment of what is right, S. C. Byrd, D. It is a fact that in our citizenship there are thousands of men who have for the purpose of confirming the nom- the right to vote; but who would be ination of Hon. Wm. J. Bryan for the utterly unfit to hold any kind of an office, either administrative or judicial. Most of this unfitness comes from ignorance, viciousness and inexperience; common sense and ability to properly appreciate the composite capacity and needs of people to be served.

The casting of an intelligent vote, therefore, is an act that calls for the ost careful consideration and the utnost good sense. And the people who arrogate to themselves the right to tell other people how to vote are as often as otherwise, as badly in need of assistance as are the people they would advise.

The safest thing is for every man to follow his own best judgment. Let nim be honest with himself in his decision and he will not likely be very unjust to his fellowman.

But the one thing to be guarded against most is the self-seeking, sneaking fellow who seeks to influence votes by telling "in confidence" all manner of inventions that they would not dare give public expresa' 1 to. This is a factor inseparable from every election, and it results in the deception and deflection of many an honest vote THERE has been some doubt about from honest men standing for honest
